

## OFFICERS PRAISE D. C. MILITIA DRILL

Ideal Summer Weather Aids the Washington Boys in Their Maneuver Tests.

SAN ANTONIO, Tex., Oct. 26.—Flushed with victory and favored with ideal summer weather, the District militiamen performed with such snap and precision on the drill field today as to elicit hearty commendation from Colonel Young and Capt. C. A. Lewis, their Inspector Instructor.

The three battalions of Washington guardsmen wreathed the eastern section of Camp Wilson from two Illinois regiments last night. The strategy employed by Majors Hodgson, McCathran and Summers was pronounced most excellent. The night attack proved interesting and spectacular to the District boys, and they entered into the spirit of it with enthusiasm.

Today many of them were busy nursing swollen limbs and doctoring themselves for wounds received when they charged as skirmishers through the cactus fields. Many scores of them were injured by the thorns.

Privates Fletcher, Gilbert, and John O. Smithson, of Company F, who were captured in Galveston after several days' absence from camp without leave, were brought back today and placed in the guardhouse to await court-martial.

After the morning maneuvers the soldiers spent their time cleaning their uniforms and equipment in preparation for participation in the brigade review by General Funston at his headquarters tomorrow.

Owing to the fact that the members of troop A have thirty-eight caliber pistols, and all the ammunition at Leon Springs is for use in forty-five caliber weapons, the cavalrymen probably will not be able to practice on the range.

## UNCLE SAM TO FILL SEVERAL GOOD JOBS

Civil Service Commission Announces a Number of Competitive Examinations.

An open competitive examination for the position of chief of accountancy, for men only, to be held on November 21, is announced today by the Civil Service Commission. Two vacancies are to be filled under the Navy Department, one at Buffalo, N. Y., at \$7.04 a day and one at Boston at \$6 a day.

"Applicants," says the announcement, "must be capable of preparing reports and of interpreting plans as presented in blueprints and specifications. They should have a practical knowledge of aircraft and of the character of materials which enter into aircraft construction, and should possess a knowledge of manufacturing methods and processes used in aircraft construction. One year's experience in constructing aircraft in the capacity of foreman in charge of skilled workers is a prerequisite for consideration for this position."

Other examinations announced by the commission are:

Assistant agriculturalist in the Bureau of Plant Industry in the Department of Agriculture; one vacancy at from \$1,000 to \$2,000, examination November 22.

Electrometallurgist for field service under the Bureau of Mines; one vacancy at from \$2,000 to \$3,000, examination November 22.

Organic and physical chemist, in the Bureau of Chemistry, Department of Agriculture; one vacancy at from \$1,800 to \$2,500, examination November 23.

Examiner of accounts under the Interstate Commerce Commission for vacancies that may occur, at \$2,200 to \$3,000 in the first grade with traveling expenses and from \$1,800 to \$2,100 in the second grade with traveling expenses, examination November 23.

## ATHENEUM TO HEAR BISHOP C. W. CURRIER

Will Address First Meeting at Rauscher's Tomorrow Night.

Bishop Charles W. Currier will speak at the first meeting of the season of the Spanish-American Athenaeum at Rauscher's tomorrow evening. Bishop Currier is president of the Athenaeum.

The Rev. Father G. Mariscal, from Toledo, Spain, and a missionary in China for twelve years, who is visiting in this country, will give an illustrated lecture on "The Influence of the Latin Races in the Orient."

A musical program, consisting of piano solos by Miss M. K. Floeckner, of the Peabody Conservatory, of Baltimore, and Rev. Father Mariscal, will follow. Dancing will conclude the entertainment.

## How to Judge a Woman by Her Hair

There are always the well-known and semi-humorous methods, such as saying brunettes are quick-tempered. But there is real common sense in just noticing whether the hair is well kept to judge a woman's neatness. If you are one of the few who try to make the most of your hair, remember that it is not advisable to wash the hair with any cleanser made for all purposes, but always use some good preparation made expressly for shampooing. You can enjoy the very best by getting some canthrox from your druggist and dissolving a teaspoonful in a cup of hot water when your shampoo is all ready. After its use the hair dries rapidly with uniform color. Dandruff, excess oil and dirt are dissolved and entirely disappear. Your hair will be so fluffy that it will look much heavier than it is. Its luster and softness will also delight you, while the stimulated scalp gains the health which insures hair growth.—Adv.

## Troop A Plans to Get Club in San Antonio

CAMP WILSON, SAN ANTONIO, Oct. 25 (by mail).—Members of Troop A are planning to rent a house in San Antonio to use as their headquarters when they visit the city. The rooms will be fitted up with furniture, billiard tables, book shelves, pictures, and other things the troopers think they will need in their clubhouse.

Private James Pou has proved most popular with his fellow troopers. One of the reasons for his popularity is that he has an uncle living in San Antonio, and the latter has turned his automobile over to his soldier nephew. The troopers were thinking about purchasing an automobile themselves, but now that Private Pou's uncle has come to their relief they will save their money. The troopers are all happy, notwithstanding the fact that the general average of horse kicks and bites among them is about twenty to the man. All troopers exhibiting less than twenty hickies inflicted by their horses are accused of "neglecting your poor steed."

## Captain Washburn Kicked.

Capt. James Washburn, who has spent about thirty years in the United States cavalry, was kicked on the knee and landed twenty feet away from his horse today.

The captain ordered soldiers to groom the hind legs of their horses. After several painful attempts, some of the troopers reported to the captain that he might be better to ride the horses and take a little of the ginger out of them before currying their hind legs.

Whereupon the captain said, "You don't go at it right." Seizing a curry comb and brush he approached his horse from the rear and said, "First you place the stable hand which to keep the horse's back is turned some of the soldiers 'massage' the horse's scalp with 'Irish celery' the term they apply to pieces of scallions."

The troopers' animals are well cared for now, as Captain Washburn has been allowed the stable hand which to keep the horse's back is turned some of the soldiers 'massage' the horse's scalp with 'Irish celery' the term they apply to pieces of scallions.

The troopers' animals are well cared for now, as Captain Washburn has been allowed the stable hand which to keep the horse's back is turned some of the soldiers 'massage' the horse's scalp with 'Irish celery' the term they apply to pieces of scallions.

## FELL FROM LOFT; HURT; THEN WELL

How a Man Who Landed on Wood Pile and Was Sore From Head to Foot Found Quick Relief.

Once upon a time Edwin Putnam, who lives in the quiet, pretty hamlet of Wendel Depot, Mass., climbed up into a loft to get some building material, just as many another man living in the country must often do. Suddenly he slipped and fell. Ten feet below was a pile of wood, knotted and gnarled. It was a nasty tumble, and Mr. Putnam was injured badly. He landed on his back, he was covered with bruises, and was sore from head to foot.

The next day he bought a bottle of Sloan's Liniment which had been recommended to him. Within a very few hours the soreness had vanished and the lacerations had disappeared. He was an active man once more.

Sloan's Liniment can be obtained at all drug stores, 25c, 50c, and \$1.00.

## SYME AND RALSTON STUMP BALTIMORE

Political addresses were made by Corporation Counsel Conrad H. Syme and Jackson H. Ralston, candidate for Congress from the Fifth Maryland district in Baltimore last night.

Mr. Syme declared that the main issue involved in the campaign was whether President Wilson's policies should be continued by his re-election, or risked by a change in policy which might involve this country in serious international difficulties and industrial complications. He based his speech largely upon the statement made by President Underwood of the Erie railroad in defending the attitude of the President upon the night-hour law.

Mr. Ralston went into an analysis of Mr. Mudd's Congressional record, particularly with reference to his vote on the Government armor plant. Mr. Ralston also discussed the President's foreign and Mexican policy at length, and closed his speech with a resume of the Democratic legislation in favor of labor.

## Big Ditch Needed.

The officers decided after the rains that a big ditch was necessary and borrowed a plow. No plow harness being available, they obtained an army truck and hitched the plow to it. All Privates Nolan and Watson had to do was to hold the plow in the furrow. As the motor truck yanked the plow along at a rapid rate and the implement was wobbled from side to side and turned upside down as it bounced over the rough and rocky earth, the two soldiers were spinning on their head time and again, and had several narrow escapes from being seriously injured by the handles and point of the plowshare.

## Farmer Gets Diamond In a Plug of Tobacco

MARYSVILLE, Oct. 26.—Jerome Hayes, farmer of Sutter county, made \$20.00 when he bought a 10-cent plug of chewing tobacco here yesterday. Hayes bit into the plug for a generous chew and his teeth came upon something too hard to chew. Hayes investigated and found he had bitten into a big diamond.

## Nose Clogged From A Cold OR CATARRH

Apply Cream in Nostrils To Open Up Air Passages.

Ah! What relief! Your clogged nostrils open right up, the air passages of your head are clear, and you can breathe freely. No more hawking, sniffling, mucous discharge, headache, dryness—no struggling for breath at night, your cold or catarrh is gone.

Don't stay stuffed up! Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, giving you instant relief. Ely's Cream Balm is just what every cold and catarrh sufferer has been seeking. It's just splendid.—Adv.

## SECRETARY HOUSTON ATTACKED BY BENSON

Socialist Blames Agricultural Department for Urging Potato Flour.

ELK CITY, Okla., Oct. 26.—"The Department of Agriculture is sending out circulars advising people to eat bread made of three parts of potato flour and two parts of wheat flour," Allan L. Benson, Socialist candidate for President, touring Oklahoma, said today.

"That seems to be the Administration's way of meeting the bread situation after we have raised enough wheat to make wheat bread. The potato bread situation, at least, has the merit that it would not interfere with the profits of the exporters who are stripping our country of wheat. But do the American people ever gain anything by accepting a reduced standard of living?"

"About ten years ago James Wilson, Secretary of the Department of Agriculture, issued bulletins to housewives telling them how, by cooking round steak well, it could be made eatable. That was Secretary Wilson's solution of the problem of the high cost of sirloin steak."

The result of this advice has been that whereas before the price of round steak was 10 cents a pound, it is now

## Stomach Troubles Due To Acidity

SAYS NEW YORK PHYSICIAN

A well-known New York physician in speaking of dyspepsia and its proper treatment says that so-called stomach troubles, such as indigestion, wind, stomach-ache and inability to retain food, are in probably nine cases out of ten simply evidences that fermentation is taking place in the food contents of the stomach, causing the formation of gas and acid. Wind distends the stomach, and causes that full, oppressive feeling sometimes known as heartburn, while the acid irritates and inflames the delicate lining of the stomach. The trouble lies largely in the fermenting food, causing the formation of excess acid. Such fermentation is unnatural, and may involve most serious consequences if not corrected.

To stop or prevent fermentation of the food contents of the stomach and to neutralize the dangerous acid and make it harmless, a teaspoonful of bisulphated manganese, probably the best and most effective corrector of acid stomach known, should be taken in a quarter of a glass of hot or cold water immediately after eating, or whenever wind or acidity is felt. This stops the fermentation, sweetens the stomach contents and neutralizes the acidity in a few moments. Fermentation, wind and acidity are dangerous and unnecessary. Stop or prevent them by the use of a proper antidote, such as bisulphated manganese, which can be obtained from any druggist, and thus enable the stomach to do its work properly without being hindered by poisonous gas and dangerous acids.—Adv.

## The Treatment of Influenza or La Grippe

It is quite refreshing these days to read of a clearly defined treatment for influenza or La Grippe. In an article in the "Lancet-Clinic," Dr. James Bell, of New York City, says he is convinced that too much medication is both unnecessary and injurious.

When called to a case of La Grippe, the patient is usually seen when the fever is present, as the chill which occasionally ushers in the disease, has practically passed away. Dr. Bell then orders that the bowels be opened freely with castor oil, "Aconite" or opiate of magnesia. For the high fever, severe headache, pain and general soreness, one anti-laminaria tablet every three hours is quickly followed by complete relief. Ask for A-K Tablets. They are so named for their relief of headache, neuralgia and all pains.

the same price as sirloin—25 cents a pound or more. The Beef trust is the only beneficiary of this advice. The people are now eating round steak at sirloin prices.

An embargo on all food exports of course would keep America's food for America and bring down food prices, but it would also bring down exporters' profits, therefore, the American people are told to eat potato bread.

The Department of Agriculture did not advocate that the American people

give up all-wheat bread for potato bread, in issuing its circular on the subject last week, it was said today, following an attack on the department by Socialist Candidate Allen Benson.

"The circular merely announced the discovery" by department chemists of a new bread—a bread that can in many cases be made more cheaply than all-wheat bread, and at any rate provide a dietary variety," officials explained. "We advocated nothing."
